Any statements contained herein (including, but not limited to, statements to the effect that the Company or its management "plans," "estimates," "believes" and other similar expressions) that are not statements of historical fact should be considered forward-looking statements. Important factors that could cause actual results to differ materially from our expectations are more fully described in our other filings with the Securities and Exchange Commission. Specific examples of forward-looking statements include, but are not limited to, forecasts of samestore sales growth, operating income, planned capital expenditures, new store openings and other financial performance. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties and other factors, many of which are outside of our control, that could cause actual results to materially differ from such statements. Such risks, uncertainties and other factors include, but are not necessarily limited to: risks related to the effect of economic uncertainty; our reliance on foreign suppliers increases our risk of obtaining adequate, timely, and cost-effective product supplies; risks related to our substantial indebtedness; our growth depends on our ability to open new stores; damage to the reputation of the Michaels brand or our private and exclusive brands could adversely affect our sales; our suppliers may fail us; risks associated with the vendors from whom our products are sourced could materially adversely affect our revenue and gross profit; product recalls and/or product liability, as well as changes in product safety and other consumer protection laws, may adversely impact our operations, merchandise offering, reputation and financial position; significant increases in inflation or commodity prices such as petroleum, natural gas, electricity, steel and paper may adversely affect our costs, including cost of merchandise; unexpected or unfavorable consumer responses to our promotional or merchandising programs could materially adversely affect our sales, operating results and cash flow; improvements to our supply chain may not be fully successful; changes in customer demand could materially adversely affect our sales, operating results and cash flow; our success will depend on how well we manage our business; competition, including internet-based competition, could negatively impact our business; failure to adequately maintain security and prevent unauthorized access to our electronic and other confidential information and data breaches could materially adversely affect our financial condition and operating results; we may be subject to information technology system failures or network disruptions, or our information systems may prove inadequate, resulting in damage to our reputation, business operations, and financial conditions; a weak fourth quarter would materially adversely affect our operating results; changes in newspaper subscription rates may result in reduced exposure to our circular advertisements; changes in regulations or enforcement, or our failure to comply with existing or future regulations, may adversely impact our business; our debt agreements contain restrictions that limit our flexibility in operating our business; disruptions in the capital markets could increase our costs of doing business; our real estate leases generally obligate us for long periods, which subjects us to various financial risks; we have co-sourced certain of our information technology, accounts payable, payroll, accounting and human resources functions and may cosource other administrative functions, which make us more dependent upon third parties; we are exposed to fluctuations in exchange rates between the U.S. and Canadian dollar, which is the functional currency of our Canadian subsidiary; we are dependent upon the services of our senior management team; failure to attract and retain quality sales, distribution center or experienced buying and management personnel could adversely affect our performance; catastrophic events, including geo-political events and weather, may adversely impact our results; the interests of our controlling stockholders may conflict with the interests of our creditors; and other factors as set forth in our prior filings with the Securities and Exchange Commission. We intend these forwardlooking statements to speak only as of the time of this release and do not undertake to update or revise them as more information becomes available.

Michaels Stores, Inc. Supplemental Disclosures Regarding Non-GAAP Financial Information

The following table sets forth the Company's Earnings before Interest, Taxes, Depreciation, Amortization and loss on early extinguishment of debt. ("EBITDA (excluding loss on early extinguishment of debt)"). The Company defines EBITDA (excluding loss on early extinguishment of debt) as net income before interest, income taxes, depreciation, amortization and loss on early extinguishment of debt. Additionally, the table presents Adjusted Earnings before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA"). The Company defines Adjusted EBITDA as EBITDA (excluding loss on early extinguishment of debt) adjusted for certain defined amounts that are added to, or subtracted from, EBITDA (excluding loss on early extinguishment of debt) (collectively, the "Adjustments") in accordance with the Company's \$2.4 billion Senior secured term loan and \$850 million Asset-based revolving credit facility. The Adjustments are described in further detail in the footnotes to the table below.

The Company has presented EBITDA (excluding loss on early extinguishment of debt) and Adjusted EBITDA in this press release to provide investors with additional information to evaluate our operating performance and our ability to service our debt. The Company uses EBITDA (excluding loss on early extinguishment of debt), among other metrics, to evaluate operating performance, to plan and forecast future periods' operating performance and as an element of its incentive compensation targets for certain management personnel. Adjusted EBITDA is a required calculation under the Company's Senior secured term loan and its Asset-based revolving credit facility. As it relates to the Senior secured term loan, Adjusted EBITDA is used in the calculations of fixed charge coverage and leverage ratios, which, under certain circumstances, may result in limitations on the Company's ability to make restricted payments as well as the determination of mandatory repayments of the loans. Under the Asset-based revolving facility, Adjusted EBITDA is used in the calculation of fixed charge coverage ratios, which, under certain circumstances, may restrict the Company's ability to make certain payments (characterized as restricted payments), investments (including acquisitions) and debt repayments.

As EBITDA (excluding loss on early extinguishment of debt) and Adjusted EBITDA are not measures of operating performance or liquidity calculated in accordance with U.S. GAAP, these measures should not be considered in isolation of, or as a substitute for, net income, as an indicator of operating performance, or net cash provided by operating activities as an indicator of liquidity. Our computation of EBITDA (excluding loss on early extinguishment of debt) and Adjusted EBITDA may differ from similarly titled measures used by other companies. As EBITDA (excluding loss on early extinguishment of debt) and Adjusted EBITDA exclude certain financial information compared with net income and net cash provided by operating activities, the most directly comparable GAAP financial measures, users of this financial information should consider the types of events and transactions which are excluded. The table below shows a reconciliation of EBITDA (excluding loss on early extinguishment of debt) and Adjusted EBITDA to net income and net cash provided by operating activities.

- (2) Comparable store sales increase represents the increase in Net sales for stores open the same number of months in the indicated period and the comparable period of the previous year, including stores that were relocated or expanded during either period. A store is deemed to become comparable in its 14th month of operation in order to eliminate grand opening sales distortions. A store temporarily closed more than two weeks is not considered comparable during the month it closed. If a store is closed longer than two weeks but less than two months, it becomes comparable in the month in which it reopens, subject to a mid-month convention. A store closed longer than two months becomes comparable in its 14th month of operation after its reopening.
